## Full Stack Software Developer

I am a hard worker and enjoying to solve problems in any project that require me to work on. During the course of my academic career, I also managed to accrue nearly 3+ years of work experience in Full Stack Software Developer. I had the privilege of working for Institute of Mine Seismology in a seismic waves ,control and conduct seismic tests to find and record sound waves from energy sources under the earth's surface role, for 10 years. I learned valuable professional skills such as Mobile web developer and full stack software developer. In both my academic and professional life, I have been consistently praised as quality-oriented by my professors and peers. Whether working on academic, extracurricular, or professional projects, I apply proven communication, creative thinking and language skills. Am still on the field studying Data Science career role.

## Experience

2022

Company Name | Google Africa Developer Training Program

### Google Cloud Mentors

Mentors to connect with each other, ask questions, give feedback, share resources and communicate with the Google Africa Developer Training Program Team. Mentors to help Student throughout learning journey.

2013 - Present

Company Name | Institute of Mine Seismology

### Seismic Wave

#### SEISMIC SYSTEM AUDIT

Verification of the performance of seismic sites is important for maintaining a fully operational microseismic system that is able to extract accurate information about seismic events

#### FUNDAMENTAL RESEARCH

Our fundamental research focuses on the main differences between processes leading to earthquakes and the seismic rock mass response to mining. In earthquake seismology the driving forces are fairly constant and relatively slow facilitating the processes of self-organisation.

2021 - 2022
